## Your Electricity

- Emitting ~4,000 pounds of Carbon Dioxide every year
- High Cost

## Your Electricity With Common Energy

- Zero emissions
- Contracted 10% discount
- Savings

# How It Works

- Common Energy participates in a NY State program called *Shared Renewables* designed to promote clean energy
- This program provides **incentives that make solar energy less expensive** than traditional electricity
- This is how you **save**:

## Step 1

We assign your account a solar project

## Step 2

The project generates clean energy

## Step 3

You receive a credit on your utility account

## Step 4

You pay 90% of the value of the credit

## Step 5

You prevent emissions and save 10%!

Example:

\$100 Credit

\$90

The screenshot shows a web browser window with the URL <https://www.commonenergy.us>. The browser's address bar and tabs are visible at the top. The website header includes the Common Energy logo, navigation links for "Community Solar", "FAQs", and "Blog", a phone number "+1-844-899-9763", and a green "Get Started" button. The main content area features a green sunburst icon followed by the text "Add clean energy to your utility account and save!". Below this, it says "Lower cost. Immediate impact." and provides two buttons: "Watch the Video" and "See my savings". On the right side, there is a large photograph of a woman with sunglasses on her head hugging a young child. A blue chat bubble icon is located in the bottom right corner of the page.
